Comments:

A total of 92,000 tonnes of cane were crushed for the week. Our one million tonne milestone for this season was reached on Saturday.

There will be a scheduled maintenance day this week on Wednesday, 6 October.

CCS for the week increased to 14.63, however it still remains below budget.

The highest CCS sample was 16.61 from a rake of first ratoon Q247 in the Waterson Productivity District.

We thank parents, carers and their children for an incident-free school holiday period. However, please remember the dangers of playing on or near our cane rail network are ever-present.

We continue to urge the travelling public to 'Use your train brain' by always giving way to cane trains.
