Comments:

Proserpine Mill processed more than 88,000 tonnes of cane for the week.

The factory has now crushed a total of 1.34M tonnes – almost 85 per cent of the total estimated crop.

There will be a final scheduled maintenance day on Wednesday 3 November.

The highest CCS sample was 16.87 from a rake of plant Q208 in the Gregory Productivity District

The crop continues to cut at about 97 per cent to estimate.

The last day of harvesting for the 2021 season is currently expected to be Thursday 18 November 2021.

This advice will be reviewed regularly and any changes advertised through Wilmar Sugar's GrowerWeb and this weekly production report.

Remember to use your train brain around our cane rail network. Approach all level crossings with caution and always give way to cane trains.
