#### Comments:

Proserpine Mill processed close to 84,000 tonnes of cane for the week.

The factory has reached the 1.5M tonnes crushed milestone, which represents 95 per cent of the total estimated crop.

The highest CCS sample was 17.35 from a rake of third ratoon Q208 in the Gregory Productivity District

The last day of harvesting for the 2021 season is still expected to be Thursday 18 November 2021.

This advice will be reviewed regularly and any changes advertised through Wilmar Sugar's GrowerWeb and this weekly production report.

As we approach the end of the 2021 season, motorists are reminded to use their 'train brain' around our cane rail network. Approach all level crossings with caution and always give way to cane trains.
