

# Choose a *pre-season payment* that *works* for you

Our pre-season payment has never been more flexible.

Get cash in your pocket before the crush, to use however you want. Get greater choice in how you receive the pre-payment, when you receive it, and how you pay it back. And all at a competitive fixed interest rate, currently 2%.

## It's easy with Wilmar:

- >> Apply for \$5/tonne of 2022 season cane nominated to Wilmar as a pre-season payment
- >> Receive the pre-season payment in the month that suits you – from January through to May 2022
- >> Choose your repayment schedule – 50% or 100%

If you're also a Bio Dunder® liquid fertiliser customer, you can:

- >> Draw down on your 2022 pre-season payment to pay for Bio Dunder liquid fertiliser purchases during the 2021 harvest
- >> Take the balance of your pre-season payment in cash in the month that suits you – from January to May 2022
